

Product Update
June 9, 2021

ChromAir Formaldehyde Color Comparator
(Part Number 384001)

Effective immediately, the ChromAir Formaldehyde Color Comparator (Part Number 384001) is no longer available for purchase. We regret that circumstances beyond our control have made it impossible for us to manufacture this product. Morphix invested significant time and effort into this product and we are very disappointed that we must remove it from our product offering. The decision to discontinue this product allows us to concentrate our development and manufacturing resources more efficiently and effectively.

A new product is currently under development to replace the ChromAir Formaldehyde Color Comparator. This new product will provide a better solution for higher resolution of our SafeAir formaldehyde badge in a relevant exposure dose range.

Thank you for your continued support of our products. We appreciate your comments to further improve our products and we strive to manufacture products to best suit your needs.
