

# Interceptor Support Date

FLIR Detection strives to provide customers with the best possible products and support. Over time FLIR Detection, at its discretion will discontinue the manufacture of Detection products in favor of new generation, more technically advanced systems.

FLIR Detection Service Department will continue to support these products to the best of our ability for the lifetime of the product, as long as materials are available. Unfortunately, due to OEM component obsolescence, support of the Interceptor product will be limited to optimizations only in 2017. Beyond this it is our duty to inform you so that you can make any necessary preparations.
