The Rapiscan 620XR provides outstanding threat detection and a low total cost of ownership. The 620XR's innovative design allows for bi-directional operation, while ergonomic options such as its adjustable control panel stand make it easy to operate.

The Rapiscan 620XR holds the most and the largest number of global regularly approvals, by U.S. Transportation Security Administration (TSA), U.K. Department of Transport (DoT), French civil aviation authority (STAC), Civil Aviation Administration of China (CAAC) and Canadian Transport of Canada.

Automatic Detection of Explosives
Target™ automatically detects a wide range of explosives in real time during the scanning process by visibly highlighting a potential threat on the X-ray image.

Automatic Detection of Narcotics
NARCScan™ automatically detects a wide range of narcotics in real time during the scanning process by visibly highlighting a potential threat on the X-ray image.

Industry-Leading Operator Training
Rapiscan Systems offers three comprehensive operator training programs: On-system Operator Training Program (OTP); standalone Computer Based Training software (CBT); and live in-person training with expert trainers in a one-to-one or classroom setting. All Rapiscan CBT programs are in full compliance with U.S. Transportation Security Administration (TSA) and European Union (EU) Commission Regulation 185/2010 requirements.

Greatest Number of Operator-Assist Tools Enables Highest Throughput
With over 13 image processing tools and multiple automatic detection functions, the feature rich software helps the operator easily and accurately detect contraband for the highest throughput and least operator fatigue.
