

Cell-Blaster

UV Cell Phone Sanitizer

SPECTROLINE[®]
SPECIALTY

BLAST AWAY GERMS

Powerful germicidal (254 nm) ultraviolet light “blasts away” germs, bacteria and viruses — in just 30 seconds.

INFLUENZA VIRUS | MRSA
STREP | E. COLI

ELIMINATES UP TO 99.9% OF

Germs, bacteria and viruses on any portion of the mobile device exposed to the UV light**

SANITIZES IN ONLY 30 SECONDS

Ultra-powerful UV tube & superreflective scanning bed ensure faster, more complete sanitizing than competitive units.

EXTRA-LARGE SANITIZING CHAMBER

Accommodates all types of cell phones up to 6.5 x 4 x 1 in (16.5 x 10.2 x 2.5 cm)

THE AVERAGE CELL PHONE CONTAINS 18X MORE GERMS THAN A TYPICAL TOILET SEAT!

NOT JUST FOR PHONES

Sanitize things we touch everyday — such as keys, credit cards, ear buds, jewelry, watches, and more.

***Cellblaster has not been tested yet on the coronavirus. It has been laboratory tested against common household bacteria and other common viruses. Testing was performed on phones as well as other small objects.*

HOME

HEALTH CARE

TRAVEL

WORKPLACE

The CellBlaster® UV Cell Phone Sanitizer, the world's first universal UV cell phone sanitizer, features an ultrapowerful germicidal UV tube and a super-reflective scanning bed. Its compact, universal design works with virtually any type of cell phone or hand-held personal device!

Perfect for the home, office or personal travel, and ideal for areas with increased exposure to infectious agents, such as hospitals, doctor's offices, nursing homes and other health care facilities. Also excellent for the hospitality industry as a complimentary service for their guests!

PRODUCT SPECIFICATIONS

PRODUCT NUMBER:	CB-4000A
LIGHT SOURCE:	4-watt, germicidal (254 nm) short-wave UV tube - BLE-2537S
CASE DIMENSIONS: (L X W X H):	9.5 x 5 x 2 in (24 x 12.7 x 5.1 cm)
INNER SCANNING BED: (L X W X H)	6.5 x 4 x 1 in (16.5 x 10.2 x 2.5 cm)
WEIGHT:	0.9 lb (0.4 kg)
POWER SUPPLY:	120V AC (also available in 230V, 240V and 100V versions)

"Some things we think are personal, are actually more public than we imagine. Bacteria and other infectious agents on a phone can cause flu, pinkeye or diarrhea..."

People are just as likely to get sick from their phones as from handles of the bathroom."

– Dr. Jeffery Cain,
President of the American Academy
of Family Physicians
